Glossary

Pistol squat
: Full-depth single-leg squat with the free leg held straight out in front.

Assisted pistol
: Pistol while holding a support (the tower upright), using as little help as possible.

Box pistol
: Single-leg sit to a box or bench, pause, stand; box height drops over time.

Counterweight
: Light dumbbell held forward at arm's length to shift balance forward.

Ankle dorsiflexion
: Bending the ankle so the knee travels forward over the toes with the heel down.

Rung / level
: A step on the progression ladder (1–6). Pass = 3 clean reps per leg on 2 days.

Grease the groove
: Frequent, fresh, never-to-failure practice.
